PROJECT

Project-1

SV - Social Media Application

- Developed "SV-Media" React web application integrating HTML, CSS, JavaScript, Bootstrap, and React, resembling functionalities of Facebook and Instagram.
- Implemented features enabling users to post images, share status updates, and manage user profiles, enhancing user engagement and interaction.
- Leveraged responsive design principles to ensure seamless user experience across various devices, prioritizing accessibility and usability.
- Employed state management techniques and asynchronous data fetching to optimize performance and maintain real-time updates within the application.
- Demonstrated strong problem-solving skills and attention to detail in debugging, testing, and refining the application to meet project requirements and exceed expectations.

Project-2

Food In -Responsive Restaurant website

- Developed a responsive restaurant website utilizing HTML, CSS, JavaScript, and Bootstrap to ensure seamless user experience across devices.
- Implemented intuitive navigation, interactive menus, and dynamic content to enhance user engagement and facilitate easy exploration of culinary offerings.
- Utilized Bootstrap's grid system and responsive design features to create a visually appealing and accessible website that adapts to various screen sizes, optimizing accessibility for customers on desktop and mobile devices.

EDUCATION

DME -Mechanical Engenering

2017-2020

NMS kamaraj polytechnic

BE -Computer Science

2023-2025

Satyam college of engineering
and technology

CERTIFICATION

"Certified completion of Guvi's Python course, demonstrating proficiency and mastery in Python programming."
